**Date:** 03/10/2008 08:47 AM

---

Please ignore the comment about "listening and learning"- that carried over from the last meeting email.

**I would like this to be an active discussion on expectations for stormwater SC so we can get some shared goals established, and ensure our current efforts are on an acceptable path forward.**

**Subject:** Agenda for March 13th stormwater mtg 10-noon

Attached are some materials for our stormwater meeting this Thursday, 1:00 - 3:00, in DEQ Conference Room A/B (4th floor)

Hopefully you have time to have reviewed these materials in advance of the meeting and are prepared to discuss.

I am envisioning this as a follow up to the "listening and learning" session for EPA. We want to hear comments on DEQ's vision of an overall stormwater strategy, and discuss whether this is consistent with EPA's current thinking for addressing Stormwater in the PH ROD.

If you have comments, questions additions or deletions, please let me know! Thanks
